Mackay Economic Enquiry and Experimentation (ME3E): A unique opportunity to engage in real-world economic analysis and decision-making through participation in economics-related projects and experiments.

Department of Economics, University of Toronto

The Mackay School of Economics is a highly esteemed program that integrates theoretical knowledge with practical applications, preparing students for careers in academia, finance, and public policy. Its commitment to excellence in teaching and research is evident in its faculty members' contributions to the field of economics. The department offers a comprehensive curriculum that includes both undergraduate and graduate programs, with a focus on developing critical-thinking skills and a deep understanding of economic principles.
